Public Benefit	Notes
Maximizing the value of Georgia's Assets	This project could potentially maximize the full utility of an existing transportation facility(s). In some cases, bypasses will be necessary. Example benefits could be: mitigating congestion (e.g. operational improvements) and optimizing capital asset management (e.g. resurfacing, rehabilitation). The impacts would apply to this roadway segment, corridor, and/or intersection.
Additional Benefits	This project would benefit the public by enhancing safety by increasing the structural integrity of the bridge insuring, motorist safety, and ride quality. This project will also address spalls, exposed reinforcement, severe cracking, and the repairing of expansion joints, clean and paint the existing structure.
