Public Benefit

Notes

Supporting Economic Growth/Competitiveness

This project could assist in having a positive impact on the economic vitality for this region, and in some cases possibly for the entire state. Its impact could also be observed along the roadway segment, corridor, and/or intersection. Example benefits could be: improved access to jobs; improved travel times for drivers; increased lane capacity; improved efficiency and reliability for freight cargo/goods movement; providing border to border and inter-regional connectivity; and improve local connectivity to statewide transportation network.

Additional Benefits

This project would benefit the public by ensuring the safe condition of airport infrastructure serving commercial and general aviation aircraft. The project will rehabilitate the pavement on the Air Carrier and general Aviation aprons. Failure to repair the aprons could result in increased congestion if the aprons have to be taken out of service for any length of time. Failure to repair the aprons could result in the loss of revenue to the airport
