

Project Sheet

Project Number: RC07-000145 **Project Name:** Signal Modernization Walton Way Phase III (Druid Park to Heard Avenue)

GDOT ID: 0011407

Project Description: This project would upgrade traffic signals and install fiber optic interconnectivity between Heard Avenue and 15th Street as well as install adaptive signal technology. Other possible improvements include upgraded street lights and installation of an emergency vehicle preemption system.

Regional Commission: Central Savannah River Area

County: Richmond County

| Phase | Total Project Cost | Total TIA Amount | Comments (Please note all cost estimates are in 2011 dollars and actual costs for all phases at year of expenditure will be higher): |
|--------------|--------------------|--------------------|--|
| PE | \$250,000 | \$250,000 | |
| ROW | \$75,000 | \$75,000 | |
| CST | \$2,000,000 | \$2,000,000 | |
| Total | \$2,325,000 | \$2,325,000 | |

| Public Benefit | Notes |
|--|---|
| Maximizing the value of Georgia's Assets | This project could potentially maximize the full utility of an existing transportation facility(s). In some cases, bypasses will be necessary. Example benefits could be: mitigating congestion (e.g. operational improvements) and optimizing capital asset management (e.g. resurfacing, rehabilitation). The impacts would apply to this roadway segment, corridor, and/or intersection. |

| | |
|---------------------|---|
| Additional Benefits | This project would benefit the public by potentially improving operations and provide Congestion relief of the Corridor between Druid Park Avenue and Heard Avenue through upgraded signals and interconnectivity of the signals. |
