

# Project Sheet

**Project Number:** RC07-000179      **Project Name:** Robert Toombs Avenue Resurfacing

**GDOT ID:** 0011412

**Project Description:** Resurface Toombs Avenue/US78/SR10 within the City of Washington

**Regional Commission:** Central Savannah River Area

**County:** Wilkes County

Phase	Total Project Cost	Total TIA Amount	Comments (Please note all cost estimates are in 2011 dollars and actual costs for all phases at year of expenditure will be higher):
CST	\$606,906	\$606,906	
<b>Total</b>	<b>\$606,906</b>	<b>\$606,906</b>	

Public Benefit	Notes
Ensuring Safety and Security	This project would benefit the public by potentially reducing the incidence of crashes along this roadway segment, corridor, and/or intersection.
Maximizing the value of Georgia's Assets	This project could potentially maximize the full utility of an existing transportation facility(s). In some cases, bypasses will be necessary. Example benefits could be: mitigating congestion (e.g. operational improvements) and optimizing capital asset management (e.g. resurfacing, rehabilitation). The impacts would apply to this roadway segment, corridor, and/or intersection.

Additional Benefits	This project would benefit the public by enhancing safety due to surface cracks and potholes that create hazardous conditions. Milling and resurfacing is required to establish a level driving surface and to maintain proper water runoff. The roadway current operates with an average daily traffic of 2,900 with 19 % truck traffic.
