Public Benefit **Notes**
 Maximizing the value of Georgia's Assets This project could potentially maximize the full utility of an existing transportation facility(s). In some cases, bypasses will be necessary. Example benefits could be: mitigating congestion (e.g. operational improvements) and optimizing capital asset management (e.g. resurfacing, rehabilitation). The impacts would apply to this roadway segment, corridor, and/or intersection.

Additional Benefits This project would benefit the public by repairing the existing structure to increase its structural integrity, and motorist safety. This project will address spalls with exposed reinforcement, severe cracking, repairing of expansion joints, cleaning and painting the structure.
