Public Benefit	Notes
Maximizing the value of Georgia's Assets	This project could potentially maximize the full utility of an existing transportation facility(s). In some cases, bypasses will be necessary. Example benefits could be: mitigating congestion (e.g. operational improvements) and optimizing capital asset management (e.g. resurfacing, rehabilitation). The impacts would apply to this roadway segment, corridor, and/or intersection.

Additional Benefits	This project would benefit the public by improving roadway capacity and safety by resurfacing, and reconstructing the existing curb and gutter, sidewalks, and storm sewer system from Laney Walker Boulevard to Reynolds Street . This project would improve the economic development in Downtown Augusta, GA.
