

Project Sheet

Project Number: RC07-000079 **Project Name:** SR 17 Widening from SR 43 to Smith Mill Road

GDOT ID: 222250-

Project Description: widening SR 17 from SR 43 to Smith Mill Road from 2 to 4 lanes.

Regional Commission: Central Savannah River Area

County: McDuffie County

Phase	Total Project Cost	Total TIA Amount	Comments (Please note all cost estimates are in 2011 dollars and actual costs for all phases at year of expenditure will be higher):
CST	\$25,083,458	\$4,000,000	This project is partially funded through TIA. The remaining project costs will be funded by other sources.
UTL	\$168,000	\$0	
ROW	\$4,304,400	\$0	
Total	\$29,555,858	\$4,000,000	

Public Benefit	Notes
Ensuring Safety and Security	This project would benefit the public by potentially reducing the incidence of crashes along this roadway segment, corridor, and/or intersection.
Maximizing the value of Georgia's Assets	This project could potentially maximize the full utility of an existing transportation facility(s). In some cases, bypasses will be necessary. Example benefits could be: mitigating congestion (e.g. operational improvements) and optimizing capital asset management (e.g. resurfacing, rehabilitation). The impacts would apply to this roadway segment, corridor, and/or intersection.

Additional Benefits	This project would benefit the public by enhancing safety by increasing visibility, signage, clear zones distances, median construction, constructing turn lanes, bike lanes, shoulders and widening the existing network of SR 17 to 4 lanes, which currently consist of 2 lanes at SR 43 intersection. Lane expansion will allow for separation of commercial and passenger vehicles
