

# Project Sheet

**Project Number:** RC09-000014      **Project Name:** SR 87/US 23 Widening from CR 8/Log Cabin Rd to South of SR 257

**GDOT ID:** 222410

**Project Description:** This project will widen SR 87/US 23 from CR 8 to South of SR 257 from 2 to 4 lanes.

**Regional Commission:** Heart of Georgia-Altamaha

**County:** Dodge County

Phase	Total Project Cost	Total TIA Amount	Comments (Please note all cost estimates are in 2011 dollars and actual costs for all phases at year of expenditure will be higher):
CST	\$33,605,254	\$6,756,751	This project is partially funded through TIA. The remaining project costs will be funded by other sources.
UTL	\$35,700	\$0	
<b>Total</b>	<b>\$33,640,954</b>	<b>\$6,756,751</b>	

**Public Benefit**

Maximizing the value of Georgia's Assets

**Notes**

This project could potentially maximize the full utility of an existing transportation facility(s). In some cases, bypasses will be necessary. Example benefits could be: mitigating congestion (e.g. operational improvements) and optimizing capital asset management (e.g. resurfacing, rehabilitation). The impacts would apply to this roadway segment, corridor, and/or intersection.

Additional Benefits

This route serves as the main truck access between the cities of McRae and Cochran. The proposed project will enhance the safety and operational characteristics of this route for trucks and passenger vehicles. The widening improvement will increase the traffic carrying capacity to accommodate these higher volumes while eliminating congestion due to lack of passing opportunities. Furthermore, this widening could help mitigate congestion having a positive economic impact in the region through improved travel times and efficiency/reliability of the transportation network.

**Project Location**
