

Project Sheet

Project Number: RC07-000066 **Project Name:** SR 47 Passing lanes for 2.48 Miles

GDOT ID: 231360-

Project Description: Passing lanes from milepost 7.85 to milepost 10.53

Regional Commission: Central Savannah River Area

County: Lincoln County

Phase	Total Project Cost	Total TIA Amount	Comments (Please note all cost estimates are in 2011 dollars and actual costs for all phases at year of expenditure will be higher):
CST	\$4,175,166	\$1,000,000	
Total	\$4,175,166	\$1,000,000	This project is partially funded through TIA. The remaining project costs will be funded by other sources.

Public Benefit

Maximizing the value of Georgia's Assets

Notes

This project could potentially maximize the full utility of an existing transportation facility(s). In some cases, bypasses will be necessary. Example benefits could be: mitigating congestion (e.g. operational improvements) and optimizing capital asset management (e.g. resurfacing, rehabilitation). The impacts would apply to this roadway segment, corridor, and/or intersection.

Additional Benefits

This project would benefit the public by constructing a westbound passing lane and an eastbound climbing lane on State Route 47. SR 47 between Clarks Hill Lake and Lincolnton has a moderately rolling terrain with inadequate sight distance caused by substandard vertical curvature and few opportunities to pass. The project could also improve safety by providing safer opportunities to pass.

Project Location
